

V. S. M. COLLEGE (A):: RAMACHANDRAPURAM

PROGRAMME SPECIFIC OUTCOMES

B.Sc-Mathematics, Physics, Chemistry (M.P.C)

- PSO1:** Student can understand the role of mathematics in dealing concepts of Physical and chemicals properties in a quantities way.
- PSO2:** Student can understand the concepts of mathematics, physics and chemistry and analyze the relation among them like physical chemistry and mathematics modeling of physics and problem in chemistry.
- PSO3:** Students can acquire the knowledge of various instruments useful for the determination of various physical and chemical materials using mathematical expressions.
