

V. S. M. COLLEGE (A):: RAMACHANDRAPURAM

PROGRAMME SPECIFIC OUTCOMES

M.Sc. ORGANIC CHEMISTRY

PSO1: Gains complete knowledge about all fundamental aspects of all spheres of chemistry.

PSO2: Understands the background of complex chemical structures, separation techniques, various reactions and rearrangements, mechanisms, applications and they will be able to apply these in advanced studies.

PSO3: To be able to get knowledge for finding new routes for synthesis of various organic compounds and get job opportunities at pharmaceutical industries understand about various synthetic and natural products.
