BRIDGE COURSES

Bridge course to improve students' learning levels :

Bridge courses can be considered as **supplementary knowledge** that can be provided to students to **impart basic knowledge in them** about the advanced subjects that will be taught to them in the upcoming future.

The bridge course will enable the student to **spare a couple of valuable years without settling** on the field he needs to consider. For example, an **Art student** wants to pursue higher education in **Accounting or Finance**. For this, he/she should contemplate the essential courses needed for accounting/finance and a typical course in these will keep going quite a while which will hurt the student a lot in their career.

This is the place where bridge courses become an integral factor as the student can take up bridging courses in the very essentials needed for bookkeeping like **Maths, Stocks, Bonds**, and so on which will again spare student's valuable time and efforts.

These days, different organizations all over the globe additionally have bridge courses that are compulsory for **new joiners** so they can have the fundamental information on the work they can expect and will show them the necessary aptitudes for the occupation which will later spare a ton of time, the cash of the organization and execution in the test, will give the organization an essential thought of the effectiveness, information, and specialization of the worker and help the organization in choosing the most reasonable work the representative can be relegated with.

The Essential and basics of 10 +2 level subjects are important to comprehend the subject with ease. Hence the bridge course is planned so that it turns into the piece of the educational program of twelfth Standard and B.Sc. subjects. The Bridge course is expected to go about as a support for the new enters with certain targets to give sufficient chance to the progress to the in-your-face of a degree course.

Objectives

- To give a sufficient establishment in the fundamental applied science subject, with the goal that students don't confront any trouble when the college classes start.
- This course gives a superior progress stage to set themselves up before the beginning obviously for the primary semester.
- To overcome any barrier between subjects learned at the pre-college level and subjects they would concentrate on B.Sc. classes.
- Bridge course goes about as a cradle for the new passage.
- Interactive and dynamic learning students will be outfitted with information and certainty before the main year course. It is course conduct by every Department by framing their own syllabus.

The bridge course is a start and not an end in itself. Lamentably, schools are not set up to acknowledge the truth. The explanation is somewhat that instructors, as a rule, trust it isn't beneficial to go through over ten days for a bridge course. A bridge course should be followed up consistently. For a recognizing student with an English medium foundation, the way to deal with the bridge course could be changed by restricting syntax to the learning of tenses, cognizance to tuning in and perusing and appending high significance to bunch exercises.

Why are Bridging Courses Important?

Bridge courses can be considered as valuable information that can be given to understudies to confer fundamental information in them about the serious subjects that will be educated to them in the impending future.

For instance, if a student has finished his graduation in Engineering with Computer Science specialization and needs to seek after post-graduation in Information Sciences, a bridge course might be educated to him so he can have the fundamental information on the course that will be instructed to him. This will ensure the student doesn't need to examine the whole college class of Information Sciences at present sparing the entirety of the student's time, energy and cash.

The completion time of a bridge course can change from organization to foundation, however, by and large, a bridge course keeps going from a half year and as long as a year.

This is where bridging courses come into play as the student can take up **bridging courses** in the very basics required for accounting like **Maths, Stocks, Bonds, etc** which will again save student's resources.

REMEDIAL CLASSES

Remedial education (also known as developmental education, basic skills education, compensatory education, preparatory education, and academic upgrading) is assigned to assist students in order to achieve expected competencies in core academic skills such as literacy and numeracy. Whereas special education is designed specifically for students with special needs, remedial education can be designed for any students, with or without special needs;

A remedial activity is one meant to improve a learning skill or rectify a problem area. The purpose of remedial teaching involves individualized teaching of students who are experiencing difficulties in specific subject areas. Remedial instruction might be taught individually or in groups and targets academic weaknesses that potentially hinder learning. The benefits of remedial teaching activities can include forming the foundation for learning a subject in greater detail. These skills must be learned before students can develop a detailed understanding of the topic of study.

Success factors

Distinguishes seven commonly cited elements that are associated with student success in developmental programs:

- Orientation, assessment, and placement are mandatory for new students
- Clearly specified goals and objectives are established for courses and programs
- The adult learning theory is applied in the design and delivery of the courses
- The courses are highly structured
- The programs are centralized or highly coordinated
- Counselling, tutoring, and supplemental instruction components are included
- The social and emotional development of the students is taken into consideration

Role of teachers

In order to provide a positive experience and to ensure the effectiveness of online remedial courses, the tutor's roles in designing and organizing the learning experience, providing technical advice and support, encouraging and facilitating discussion, encouraging participation, using a variety of forms of instruction, and resolving communication problems are crucial.

Course delivery

There is an active debate on how remedial courses should be delivered to students. Students that are placed into remedial courses hold differing skill levels and needs for support. There is an active debate on whether students that are on the upper end of the skill spectrum may be most successful bypassing remedial coursework and enrolling in college-level courses with additional tutoring (see National Efforts to Strengthen Remediation). In contrast, students with larger skill deficiencies may require substantial math and English instruction before they can succeed academically. Researchers continue to investigate and make recommendations for effective remedial education models.

Currently, remedial education courses are delivered many ways across the United States:

1. Traditional, semester-long courses;
2. Cohort models that group a class of students together in a series of remedial courses;
3. Placing students in college-level courses with mandated tutoring or supplementary instruction;
4. Modularized courses that target particularly student skills;
5. Intensive, compressed courses that accelerate student readiness;
6. Courses that integrate remedial content with occupational skills;

Remedial coaching for III BSc students conducted from 4/02/2019 between 13/02/2019

P. Naga Malleswari, Lecturer in Computer Science explained the following topics

1. Explain about programming language.
2. Explain the structure of C program.
3. Explain various operators in C with Example.
4. Explain about Decision making and branching statements in C.
5. Explain various Looping statements in C with Example.
6. What is an Array? Explain different types of arrays.
7. Explain various string handling functions in C.
8. Define pointers. Explain call by reference with an Example.
9. Explain about union with Example.
10. Define file. Explain I/O operation on files?

Remedial Coaching for II BSc (CI) students
Conducted from 06/09/18 between 15/09/18

P. Paga mallewar, lecturer in Computer Science
Explained the following topics:

1. What is Computer? Explain block diagram of a Computer.
2. Explain about generations of a Computer.
3. Explain any five input devices.
4. Explain about Secondary storage memories.
5. How to create, save and close documents.
6. Explain about tool box.
7. Explain about menu bar.
8. What is layer? Explain layer styles.
9. What is filter? Explain different types of filters.
10. Explain about selection tools.

Remedial Coaching for I Bsc (cs) Students Conducted
from 02/02/2016 to 10/02/2016. Between 8.30 AM
to 9.30 AM

M.V.V Chowdary Lecturer in Computer Science
Explained the following topics.

Questions:-

1. Explain about Classification of Computers?
2. Explain Various types of input and output device.
3. Explain Secondary Storage devices?
4. Explain Various types of Number Systems.
5. Define operating system? Explain various types
functions of operating system.
6. Explain types of Computer software?
7. Define algorithm? Explain control structures
used in algorithm?
8. Explain how to editing and formatting text
in MS-Word.
9. Explain Mail Merge Concept in MS-Word.
10. Explain about functions in MS-Excel.
11. Explain about Charts in MS-Powerpoint.
12. Explain Various views in MS-Powerpoint.

About CRT & Placement Cell:

The professional world is tough. There's widespread competition for jobs, and not everyone gets a great opportunity. With their final semester already and on their mind, the students can be under a lot of pressure when it comes to placements. It can be very tough for the students mentally. That is why a vsmc needs to have a good placement cell in place. VSMC placements cells will help students prepare for their upcoming step into the professional world, and also help relieve a major part of the stress they have. They have been established by the VSMC mainly as a place for guidance that will help them get placed in a job profile they want according to their qualifications and skills.

Bridge the Gap:

As mentioned before, placement cells have to get the right people into the right place. Yes, there are many jobs in the market, but there is also a lot of talent and these need to be matched correctly. Students can have preconceived notions about which company they want to work in, or what kind of salary they want to get. Many a time, these notions are far-fetched, as being students they do not really have an idea of what is going on the industry. Here again, the placement cells have a job to illuminate them about the realities of the situation, and show the right place where they fit.

Preparation

One of the best things a placement cell can do for student is to prepare them. Interviews are tough, and one bad interview can shatter the confidence of even the best students. So, through mock interviews through counseling, and provide them with tips for confidence during an interview, the placement cells can do a really good job of preparing them mentally.

Awareness

Another way placement cells help is by increasing their awareness. Though students might be good with theoretical knowledge, they also have to know about the current industry conditions. Placement cells help students know about the industry they are getting into. They will be heading out into the professional world with a lot more awareness and preparation.

Employment Opportunities:

This is, of course, the main aim of a placement cell – getting students placed in good companies, where they can start their careers. Campus placements are the first place where students get an in-depth look into the professional world. They also get a clearer idea of what they are going to do. Interacting with industry professionals is always great and therefore, placement cells have to get

the best companies for placement drives. This also helps in educated people get into the right jobs and helps the reputation of the college on a micro level and the economy and reputation of the country on a macro level. Presidency VSMC has a fabulous placement cell that is run by students and faculty. For the current placement drive, they have got some of the biggest companies in the country, and complete 100% placement result of the students in all streams is expected. Therefore, if you want a great career working in your dream company, be a part of Presidency VSMC today! Get in touch with us for enquiries.

Letter of Interest

To, Pasala Sandeep

Greetings from Infosys BPM!

We refer to your application for employment and the subsequent interview process you had with Infosys BPM Limited ("Company").

We are pleased to inform you that you have cleared the selection process held at your college. You would now be expected to attend our training program at the Infosys campus in Mysore for a duration of 15-20 days. Post training, you will undergo an assessment and on clearing the same, you may be offered a role/job in the Company. While this letter does not directly constitute an employment offer, if you do clear further rounds of our selection process and complete the other necessary formalities, a letter of employment will be sent to you with all your joining details. There are certain terms and conditions that a candidate must know while exploring employment options with the Company. Given below is a non-exhaustive list of these terms and conditions:

1. A candidate may be assigned to work at, deputed or be transferred to any of the Company's units / departments, locations, affiliate entities or subsidiary companies. The Company expects the candidate to be willing to undertake the responsibilities assigned to him/her in the location/department/unit as may be determined by the Company.
2. A candidate is required to submit certain documents at the time of joining the Company. The Company will communicate to the candidate the list of those documents once it decides to make an offer of employment to him/her. It is expected that the candidate will submit each of those documents, failing which the Company may take appropriate action(s) including the withdrawal of the offer of employment.
3. The Company has its own transport facility for the benefit of all employees. An employee can avail this facility, provided he/she abides by the Company's transport policy. Once an offer of employment is made to a candidate, the terms of the above stated policy will be communicated to him/her.
4. Before joining employment of the Company a candidate has to submit a medical certificate in the form and manner prescribed by the Company. In addition to this, the Company reserves the right to conduct further verification of your medical condition and/or records if it is deemed necessary in light of the work that will be performed by you.
5. Each candidate who is made an offer of employment by the Company is required to register himself/herself on [www.nationalskillsregistry.com] before joining employment of the Company at his/her own cost, failing which the Company may take appropriate action(s) including the withdrawal of the offer of employment

The Company reiterates that this letter is being issued to intimate you about the essential terms which you must be aware of while considering employment opportunities with us. You are therefore requested to ensure that all these terms are adhered to at every point during the selection process. We look forward to your participation in the further rounds of selection and hope to see you at Infosys BPM.

For any further clarifications, please do reach out to us at bpm_campusteam@infosys.com. 080-41032362

Yours sincerely,

“ INTERLECTULA PROPERTY RIGHTS FOR SUSTAINABLE DEVELOPMENT”

Pride of **VSM VSM COLLEGE (A)** is the first offspring of Ramachandrapuram Education society established in the year **1966** in **14** acres serene environment with the great philanthropist Vundavalli Satyanarayana Murthy it is one of the oldest college in East Godavari District Our College has been twice-accredited at B Grade by NAAC Our College has been selected for the award of ‘**College with Potential for Excellence**’ by UGC 2010 and achieved **93rd** rank in **NIRF 2017** UGC conferred **Autonomous Status of our college in 2015**. The College started with 200 students and 15 faculty members with P.U.C., B.A and B.COM Programmes. Now the College is offering 9 UG courses and 9 PG courses The present **students strength of the College is about 2500**.

DEPARTMENT PROFILE:

The Commerce Department is having its own history with able and efficient faculty members. The Department had a humble beginning In 1966-67 with two staff members. The department was headed by **Sri Atluri Subbarao in 1966**. The Department of Commerce offering B.COM General, B.COM Computer Applications and BBA programmes in our college The students of the department have brought several laurels in the field of Accounting, Taxation Management Public Service, Sports and creative art. The department has produced several Chartered Accountants and Companies Secretaries also. The students of the department were placed in various positions in renowned public and private enterprise. **The department had initiated several best practice such as Green Audit, College documentary student projects, sustainable development projects and student welfare association so far the department conducted One National Workshop.** .

About the Intellectual Property Rights :

The workshop showcased the fact, how Intellectual property rights (IPR) have become important in the face of **changing trade environment which is characterized by the following features namely global competition, high innovation risks, short product cycle, need for rapid changes in technology, high investments in research and development (R&D) and need for highly skilled human resources**. It is a matter of great pleasure and pride for us to organize the **One Day Workshop on “Intellectual Property Rights for sustainable Development”**. IPR is covering patents, copyrights, trademark, industrial designs, geographical indications. IPRs related law and rules are very difficult to understand for common people who are related with various types of business, industries and research. Therefore, this workshop would be helpful to spread awareness regarding IPRS related law and rules are very difficult to understand for common people who are related with various types of business, industries and research. This workshop was conducted in UG Seminar hall with 100 students.

Objectives of the workshop :

1. To discuss the importance of Intellectual Property and Sustainable Development
2. To discuss the legislative framework of laws relating to Intellectual Property Protection.
3. To discuss about the role of judiciary in providing safeguards for the protection of Intellectual Property Rights
4. To discuss the law relating to Geographical Indication and Traditional Knowledge.
5. To discuss the provisions relating to Right of Farmers & Plant Breeders in IPR Laws.

Sub-Themes :

- A. Transition of Intellectual Property Rights 2. Intellectual property rights Implications on Innovations
Drafting of a patent specification-a techno-legal document

About the Intellectual Property Rights Workshop
The workshop showcased the fact, how intellectual property rights (IPR) have become important in the face of changing trade environment which is characterized by the following features namely global competition, high innovation risks, short product cycle, need for rapid changes in technology, high investments in research and development (R&D), and need for highly skilled human resources.

It is a matter of great pleasure and pride for us to organize the One Day Workshop on "Intellectual Property Rights for sustainable Development". IPR is covering patents, copyrights, trademark, industrial designs, geographical indications. IPRs related law and rules are very difficult to understand for common people who are related with various types of business, industries and research. Therefore, this workshop would be helpful to spread awareness regarding IPRs related law and rules are very difficult to understand for common people who are related with various types of business, industries and research. Therefore, this workshop would be helpful to spread awareness regarding IPR and their related issues. Further, the object of this workshop is to provide a platform where experts, academicians, delegates as well as people at large interact and exchange their ideas and knowledge pertaining to the Intellectual Property Rights for sustainable Development"
