Interview Skills

This short training for WEST takers to what to do to prepare, some pointers about how to behave and react in the interview and what you might expect at an interview. The most important thing to remember about any interview is that it is a two-way process. It is as much about you finding out whether you want to work for the company as them finding out whether they want you. This means it is important to present yourself as you really are, not pretend to be something you're not.
