Dt. 22-08-2019

To
The General Manager
A.P. Gas Power Corporation Limited,
Gas Turbo Power Station,
VIJESWARAM – 534350.

Sir,

Sub: Permission to visit the Power Plant on dt : 27-08-2019. Requested

This is to inform that our College I M. Sc. and III B. Sc. Degree students are intending to visit your Power Plant to know the process of power generation, as a part of curriculum. *(50 students)*

Hence, it is requested to please arrange permission to visit your Power Plant on 27-08-2019 or any suitable date convenient to you.

Thanking You Sir.

Yours faithfully,

(Principal)

PRINCIPAL, V.S.M. COLLEGE (A)

To
The Principal
V S M College (A)
Ramachandrapuram-533255.

Sir,

Sub: APGPCL-Vijjeswaram-Permission to visit the power plant- Accorded.

Ref : Lr.No. Nill , Dt: 22.08.2019

With reference to your letter cited, permission is hereby accorded to visit the Gas Turbo Power Plant, Vijjeswaram on 27.08.2019, 50 Nos. I M.Sc. & III B.Sc. students and 04 faculty members of your college subject to the following conditions.

1. The permission now accorded is subject to alterations or cancellation according to the exigencies in the plant.
2. Damages are to be born by your Institution if any loss/damages occur with the Students/staff.
3. Strict discipline shall be observed and subject to security and vigilance check.
4. The members permitted shall be subjected to rules and regulations of the plant.
5. You are requested to furnish the name of the students/staff proposed to visit the Power house on or before their date of visit for our information and record.
6. You should ensure that the students should not cross the green/yellow borders indicated in the power plant in view of safety.
7. Mobile phones, cameras and laptops strictly prohibited in to the plant premises

Thanking you,

*TO DR. KR

V.S.M. COLLEGE(A) RAMACHANDRAPURAM.
FIELD TRIP TO VIJESWARAM.

DEPARTMENT OF PHYSICS.

272 Mega watt Gas Turbo power plant.

- Natural Gas is the raw material which is used to generate electricity in Vijeswaram Power Plant.
- Natural Gas contains various gases which are "methane, ethane, butane, Propane, Nitrogen, Hydrogen sulphide" etc.
- The majority Part of the Natural gas contains Methane which is about "96%", and ethane about "1.1%".
- Each m^3 (meter cube) of natural Gas contains "9344 kcal" of energy: usually in Plant per day it consumes 30 Lakh standard m^3 of gas to generate 2,72,000 units of energy per hour.
- The Power Plant containing 2 stages. First stage consists of two Gas turbines and one steam turbine which generates energy respectively "66MW" and "34 MW". The total energy generated by stage 1 Plant is 100MW.
- coming to the stage 2 it contains 1 Gas turbine and 1 steam turbine whose energy generated is "112MW" and "60MW" respectively. so the total energy generated by stage -2 plant is "127 MW".
- The combination of Gas & steam turbine is called "combined cycle power plant".

Field Trip

Field trip place: - Gas Turbo Power Station (GTPS)
at vijjeswaram. [272 MW GTPS].

We reach the power plant at 11:30 AM on
27/8/2019.

Actually it was the first field trip for us.

It became very memorable for us.

At first we enter into the power plant we met the head of the power plant in meeting hall. After that we know about the safety precautions according to that plant by one who cares about the safety of the power plant.

After that we know about the purpose of power plant. They use natural gas for that purpose. Natural gas contains 96% of methane, 1.1% of ethane, remaining are propane, pentane...

It has lots of energy [chemical energy 9344 kcal]
The main purpose is the chemical energy is converted into mechanical energy.

Stage 1 (100 MW) → [Gas turbo + Steam turbo]

Stage 2 (172 MW) → [Gas turbo + Steam turbo]

The power generated at generator terminals is 3 phase is 11 kV, 50 Hz and 0.85 P.f and step up to 220 kV using power transformer and synchronised to grid.

If we give 100% of input energy but it produces 48% (or) 50% of energy.

The main part of like the most in field trip was "De-mineralised water doesn't allow current through it. That means it became a bad conductor." Only De-mineralised water will use for the process of converting water into steam.

In that power plant all the workers are very friendly with us and explain every thing very clearly.

We know many interesting things in that field trip. Thank you for best field trip ever. We want many field trips like this.

Yours faithfully,

Arjunika

I.M.Sc (physics)

Field Trip on APGIPDU

On 27-08-2019

To The Director,
Dept of physics,

We are the students from IInd BSc (Comp) C₂

- first of all, we are very thankful to the Dept of physics and the management of our college.

- We visited field trip on 27-Aug-2019 to vijjeswaram.

- It is a wonderful experience. We learn so many new things because of the trip.

- first we met the safety head Mr. Srinivasu rao. He explained wonderfully about safety measures taken to visit the trip.

- And, then they explain about the industry on the screen and then allow us to visit it.

- The main source for the production is natural gas. It contains methane of 96% and ethane 1.1%.

- It is the process of converting

Chemical Energy - Mechanical Energy - Electrical Energy

Report on field Trip from physics Department

We are the students II B.Sc-M.P.CS
C₁. From our class four girls are visited
to the vijjswaram Gas Turbo powerplant. We were
started in my V.S.M college at 9:30am and
reached to 11:30pm.

It's a very wonderful experience
In this power plant they taught us so
many safety aspects of life. They were described
about how production of power from natural
gas. very clearly. We saw the total industry
very carefully and clearly. It was an amazing
experience. We are learn so many things in this
trip.

Thanking you for given this great opportunity.

Yours faithfully.

Field visit Report
Department of Botany

Department of Botany conducted "one day training Programme on Mushroom cultivation" at 'Lakshmi Mushrooms', Rajhmundry, on dated 07 Sep 2019 i.e. 07-09-2019. In this training programme our students of III BZC, IM.sc and II M.sc Botany had participated, they learn the techniques of Mushroom cultivation and observed various stages of cultivation, which includes preparation of substrate and preparation of mycelium bags, mycelium culturing, sterilization techniques and lastly dark room, light room cultivation. Our students were also attended a seminar on "Marketing Mushroom" on that day. Mrs. Sri Lakshmi from "Lakshmi Mushrooms" have guided our students on Mushroom cultivation. A total of 45 students have participated on that day.

wild life conservation meet - 4 oct 2019

our students of I ~~B~~ & II M.Sc Botany, had attended a

Seminar on 4 oct 2019 at JNTU, Kakinada, on "wild life

conservation meet." They also enrolled as volunteers for

forest department - "Godavari mitra" of mangrove mitra."

They were allowed to work as an volunteers for forest range

offices of East Godavari dist. An inauguration function on "mangrove

mitra" was also conducted on that day.

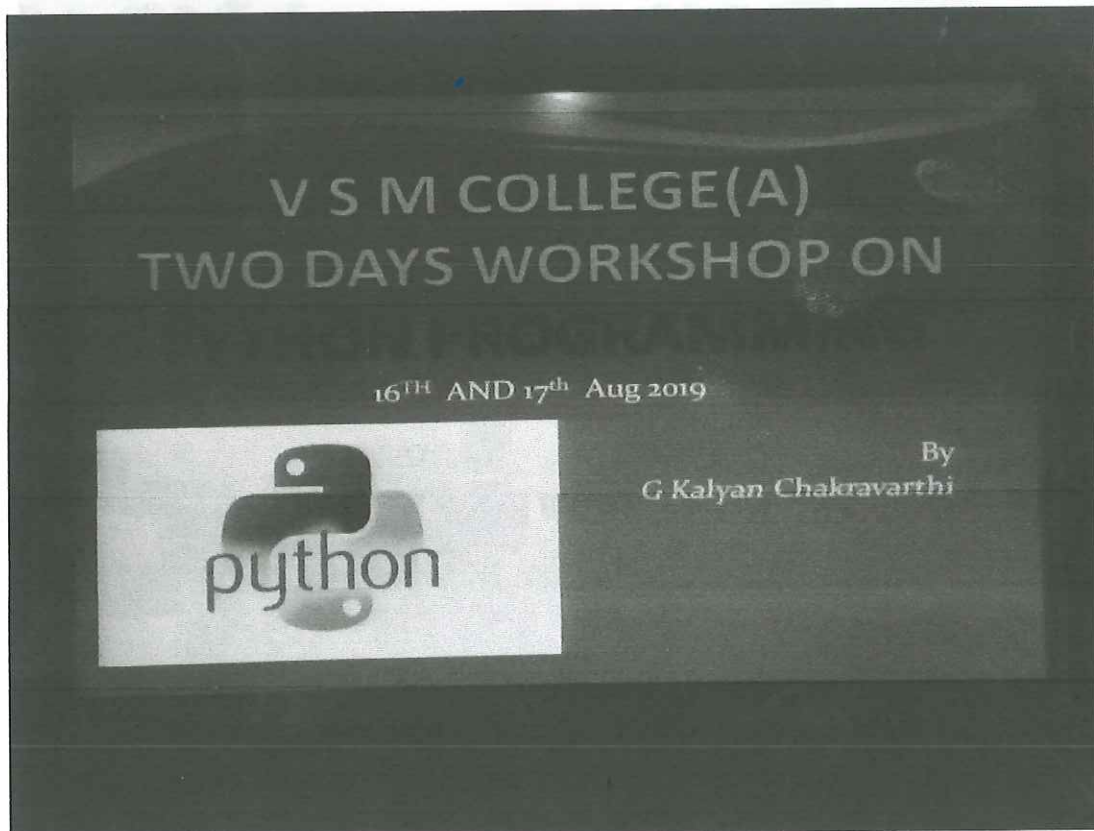

VSM College(A) :: Ramachandrapuram
UG Department of Computer Science
Workshop on Python

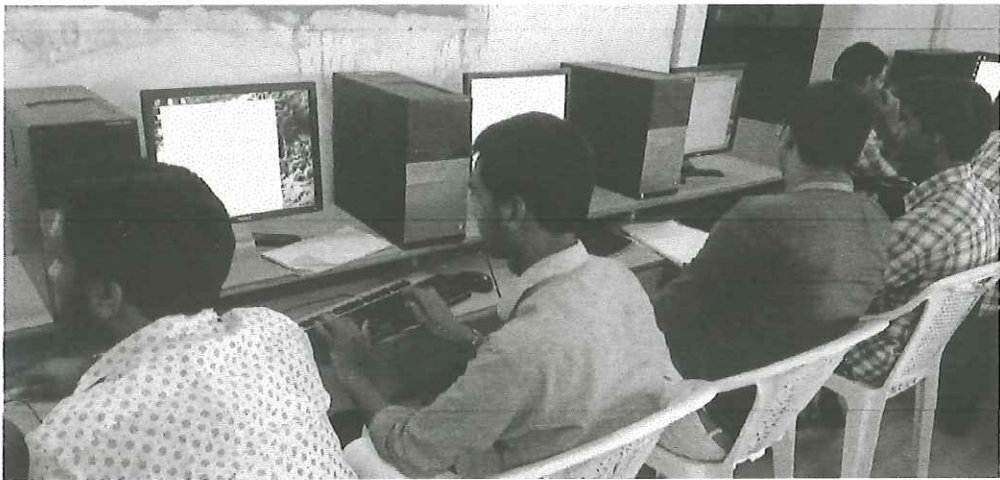

Python Workshop was conducted for III B.Sc.(MPCS) & II B.Sc.(MPCS) students on 16.08.2019 & 17.08.2019. The **Resource person** for this program **Mr.G Kalyan Chakravarthi**, Asst. Professor, Dept. of CSE, VSM College of Engineering. 57 students were attended for this workshop. In this, they learned and practiced the following topics.

- Installation of Python 2.7
- Python History and Features
- Python Variables, Keywords, Data Types
- Python Control Structures
- Functions in Python
- Exception Handling in Python
- File I/O
