

**REPORT OF TRAINING HELD AT VSM DEGREE COLLEGE,
RAMACHANDRAPURAM(16-SEPT,2019 TO 21-SEPT,2019)**

Trainer's Feedback:

The training program for VSM Degree College, Ramachandrapuram was held from 16th December 2019 to 21st December 2019. Most of the students expressed their interest in the training by attending without being absent. Many topics like I am unique, team work, interview skills, Money Management, Group Discussion were discussed.

The students learnt their positive qualities during the I am unique session which they were able to express in the interview. Most of the girls were quite good in saving money but they said that this training helped them get a clear picture of saving in a better way. In the session team work they worked well as a team. They also were of the opinion that they were glad that they got to know many other students from the college.

They improved their communication in the extempore session. The students came on stage to speak on the given topic and some of them said that this was the first time that they were on stage. Even though they were supposed to give seminars in the regular class they have always skipped them. But these extempore made them come up on stage.

They were eager to participate in the Group Discussion which helped them to understand their areas of improvement. In the second round they made sure that they improved to their level best.

I thank MPC and Naandi Foundation for this wonderful opportunity in conducting this training session for the students of VSM Degree College.

Geetha

Trainer's Feedback:

These are the experiences that I am writing from my last session of training held at VSM Degree College, Ramachandrapuram. Here, I got a set of students from different branches and who are really enthusiastic about getting a job immediately after their academics. The 6-day program went really well with various memories lasting forever. These training sessions introduced me to their creativity. Their innovative ideas are really worth thinking.

The topics that had a great impact are INTERVIEW SKILLS, MONEY MANAGEMENT and GOAL SETTING. I really feel that they are waiting to get placed and want to settle in their future. These sessions made them understand the importance of travelling to different places for job purpose. Also, they came over the fear of stage, through various presentation skills.

Topics like STORY BOARD, INDIA IS MY COUNTRY, and PROFESSIONAL ETHICS showed us their creativity. They also came to know about the body language that they should have the grooming and hygiene standards they should follow.

I personally feel that the communication of the students is good and can be improved up to some extent. They should get the door of opportunities to be opened, and get involved. And I can say that these sessions had a great impact, which showed me even their transformations.

Trainer's Feedback:

These set of students, created a beautiful journey that one week I was with them. On the first day, it was an energetic start to see students with uniforms and ID cards.

I got to know their experiences through modules like THIS ARE ME, MONEY MANAGEMENT etc.

Students showed their interest in acquiring skills related to INTERVIEWS, which I felt is really necessary. I have seen their participation and enthusiasm during team work and Goal setting.

I would say communication related classes would really show a great impact on these students. Students mentioned their heartfelt thanks and also asked for the sessions to be done even for their juniors.
