WORKSHOP

P.G DEPT OF COMMERCE AND MANAGEMENT STUDIES
V.S.M.COLLEGE
RAMACHANDRAPURAM

Date: 10/01/2018

Topic: Securitization & the challenges faced in micro-finance.

Lecture by: Prof: Dr. S. Teki sir
Adikavi Nannaya University
Rajamahendravaram.

Securitization: Securitization is the process of taking an illiquid asset, or group of assets, and through financial engineering, transforming it (or them) into a security. The derisive phrase "securitization food chain," popularized by the film "Inside Job" about the 2007-2008 financial crisis, describes the process by which groups of such illiquid assets (usually debts) are packaged, bought, securitized and sold to investors.

A typical example of securitization is a mortgage-backed security (MBS), a creation of Larry Fink at First Boston in 1983. Type of asset-backed security that is secured by a collection of mortgages, it became extremely common by the mid-1990s.

Challenges faced in Micro-finance:

- Financial reporting requirements are ever-changing
- Valuation of investments in the microfinance industry is challenging
- Listing a microfinance entity is a transformative process
- Scrutiny of the tax regimes applied by MFIs and MIVs has increased
- Financial accounting is not the core business of an MFI or an MIV
- Increased growth requires robust risk management
- Turnaround management needs a structured approach
- Stakeholders require transparency regarding the impact of microfinance and impact investing

ENTREPRENEURSHIP AWARENESS CAMP REPORT

This *Entrepreneurship Awareness Camp* is to create awareness among the students and faculty.

This camp gives us the information and allows you for experimenting and also there is high level of possibilities for growth and where money can be raised, noticing things around us, being energetic and much more.

In the programme they asked the students to become an entrepreneur who is approachable and can communicate. And finally concluded the session by advising students to identify opportunities through problem and try solving those problems, find gaps in the existing markets and fill those gaps
