

7.1.1 Institution integrates cross cutting issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum(10)

V.S.M College (A) considers that the purpose of education is to make each learner recognize their identity, understand the purpose in life through their connection and contribution to society, environment and to their fellow human beings. The art of holistic education lies in the institutions' responsiveness to offer diverse curriculum for promoting students to imbibe intrinsic reverence for life and passionate love of learning. Under the structure of autonomy the institution could consider the significance of the world's pressing conditions and problems, such as environment, climate change, politics, socio-economic and Gender issues.

Gender Sensitization Activities by Centre for Women Studies /Departments/Clubs

International Women' Day-5 March 2020

International Women's Day is a time to reflect on progress made, to call for change and to celebrate acts of courage and determination by ordinary women, who have played an extraordinary role in the history of their countries and communities.

Centre for Women's Studies has conducted two Competitions as a part of its annual fest.

- Freelance Painting (acrylic, pencil sketching, glass painting and charcoal painting)
- Documentary making
- The competitions were based on gender issues. The students portrayed their ideas of women in different perspectives through their drawings, paintings as well as the documentaries.

Activities focusing on Environment and Sustainability

Environment Education is an Ability Enhancement course offered as Co Curricular Activity program to first year students for two semesters on choice basis. This is a activity based course which encourages student participation in organizing as well participating in events such as plantation drives, cleanliness drives, Nature walks, Rallies, recycling activities, composting ,promoting eco friendly products, celebrating festivals in eco friendly ways , creating awareness by way of organizing camps, essay writing competitions ,quiz, debate, observing Eco calendar.

In view creating awareness on “**How to make Ganesh Utsav Eco friendly**”- charts were made and displayed on different aspects of the Eco-friendly Ganesha. Also sale of Eco-friendly Ganesha (clay idols) and Eco- friendly bags was organised on 31st August 2019 our college campus.

- Survey on waste disposal in Life sciences labs was taken up by our students in first week of December followed by creating awareness among lab attenders on various waste disposal methods through posters and other aids.
- Best out of Waste activity was taken up by our students with great enthusiasm making wonderful, usable items with the paper waste and plastic, during Annofesta.

Environmental day

Trees help the environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purpose. It differs from the transplantation of larger trees in arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds. We need them for oxygen and good health. Trees also help to control pollution: They absorb carbon dioxide. They improve our environment. They cause rainfall and protect water resources under the ground.

VSM college (A) organized the environment day on 5th June 2019. World Environment day is celebrated on 5th June every year and is the United Nations Principle vehicle for encouraging awareness and action for the Protection of the environment.

సీరసాప్రేరేపితే 'పేచ్చెదనెం- పీలమేప్రేతే'

As a part of Literacy programme conducted on 7th October, 2017, the NSS volunteers in Primary school. Our volunteers to give a lecture on Communication skills and aptitude skills for Students in primary school, 25 volunteers are participated in this program.

Solid Waste Management:-

The purpose of the Waste Management Program is to ensure solid waste is managed in such a way that protects both public health and the environment. The Waste Management Program works hard to help all Missourians better manage their solid wastes. Through the cooperative efforts of citizens, businesses, industry and government, Missouri can continue to increase material reuse and recycling from all solid waste sources. Reducing the amount of solid wastes generated remains the program's primary goal. VSM College (A) organized Solid Waste Management from 3rd January 2018 to 9th January 2018 in part of National Service Scheme

Self defense training program:-

Self-defence training is one of the most needed and must for every woman's to-do list. In the crime world, self-defence training is suggested, so that the women can resist any kind of sexual assault as well as random attacks. self-defense training believe these courses will not only provide women with the physical survival techniques necessary to repel attacks effectively, but that this kind of training will also help to prevent future violence by developing traits such as assertiveness and confidence in individuals. There is evidence that women who convey such characteristics are less likely to be victimized. Opponents argue that self-defense training does not properly prepare women for an attack, does not adequately address acquaintance rape threats, and can provide a dangerous false sense of security to students. V.S.M College (A) conducted self- defence training program for girls students from 16th September 2019 to 5th October 2019
