## BEST PRACTICE-I

## ONLINE MID EXAMINATION

## **Online Mid Examination Report**

The institute has selected CONDUCTEXAM WEB BASED SOFTWARE APPLICATION for conducting online mid examinations. Every second mid examination of the each semester has been conducting in this online mode. All the degree students have taken their II Mid examination through this Web Application in 2019-2020 academic year. It has been decided to conduct one of the two MID-exams online from this academic year.

The examination is conducted for 30 minutes time for answering 30 questions. The unit wise objective type question banks in each subject in a specific format are invited from all the concerned departments. These questions are uploaded by using CONDUCTEXAM WORD PROCESSOR PLUGIN which was installed in the computer system. Later on, time slots are given to a batch of students for every exam according to our timetable. The question papers are randomly generated from the question bank. No two students get the same question paper. Even if a question is same in two different papers, the sequence of four answers will be differed. Though the students get different examination papers, the difficulty level of all question papers is approximately the same. Students can attempt this exam through the mobile app also. As soon as the students submitted the exam, evaluation is completed and the Examination Cell immediately sends the reports to the concerned departments.

If any student does not have an android mobile or computer, the college will give them a desktop computer or Laptop and conduct the online MID-exam.

**Evidence of Success:**

This practice became a Green method as no paper is used. Students also felt happy about the transparency, unbiased valuation and requirement of less time in the announcement of results. They accustomed to write competitive examinations after attempting this mode of examinations.

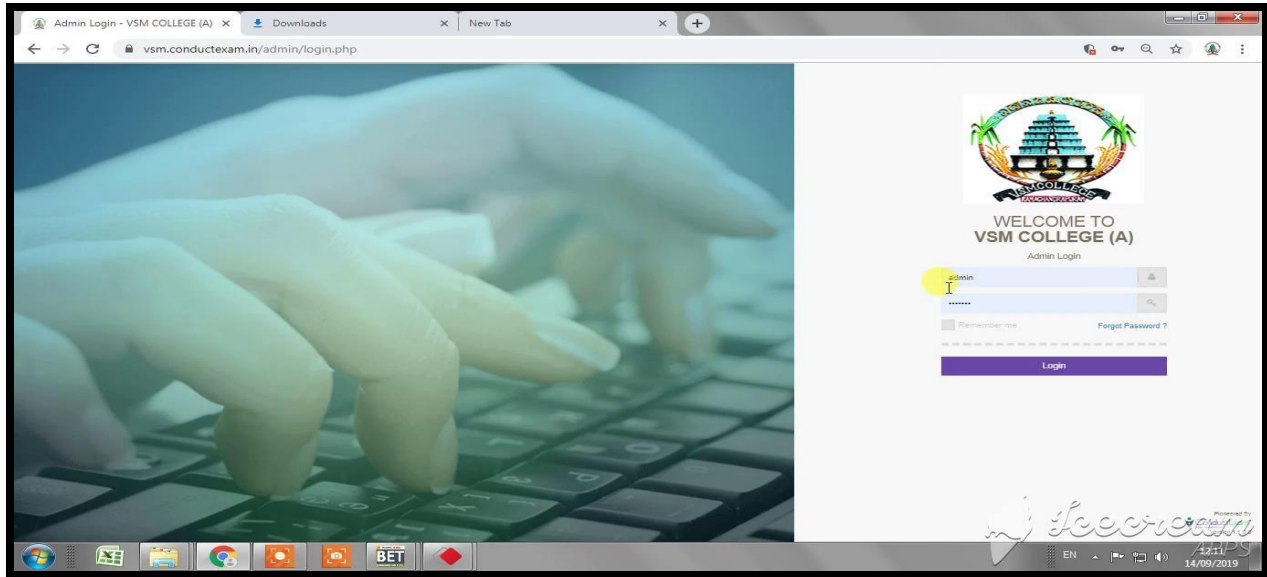

**Obstacles faced if any and strategies adopted to overcome them:**

As the system is new and unique, the system administrators at the college are to be trained regarding installation of online-examination software, trouble shooting and maintenance of database. As the Examinations are time-critical in nature, to meet the on-line examination software requirements from time to time, to handle the queries of students-end, an exclusive software maintenance center with two system administrators has been set up at the examination branch of the college.

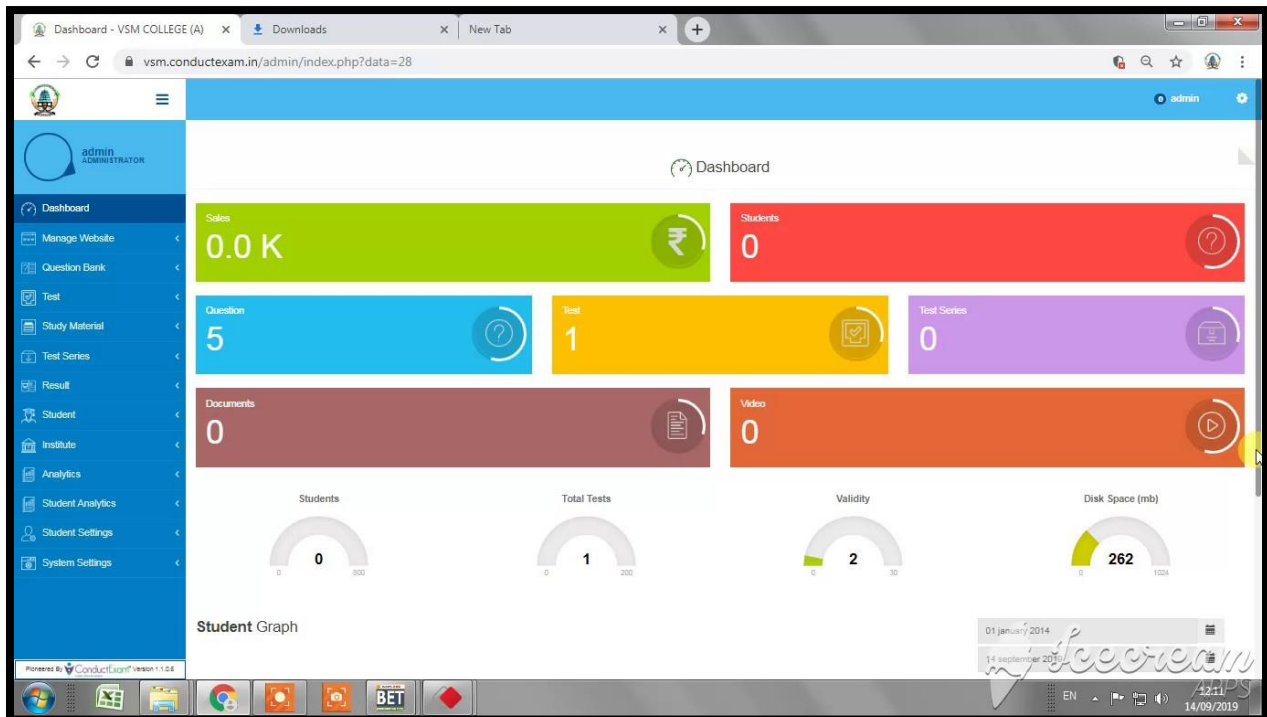

**Resources Required:**

- a) Every student may have either an android mobile or a computer.
- b) 2 trained system Administrators.

# GENERTAE TEST MODULE

The screenshot shows the 'Generate Test' module in the admin interface. The page title is 'Generate Test' and the user is logged in as 'admin'. The interface includes a sidebar with navigation options: Dashboard, Manage Website, Question Bank, Test, Generate Test, Assign Retest, Test Instruction, Study Material, Test Series, Result, and Student. The main content area displays a table of generated tests. The table has columns for S.No, Test Name, Test Type, Offer As, Details, No. Of Questions, Total Marks, Total Time (In Min.), Valid From, Valid Till, Date, and Actions. A single entry is visible with S.No 1, Test Name 'mid - II', Test Type 'Mock', Offer As 'Paid', No. Of Questions '5', Total Marks '5.00', Total Time '00:30:00', and Date '14/09/2019 12:01:44'. The page also shows a search bar, a dropdown for 'Test Category' set to 'Custom Test', and a 'records per page' selector set to 10. The footer indicates the system is 'Pioneered By ConductExam™ Version 1.1.0.8' and the date is '14/09/2019'.

S.No	Test Name	Test Type	Offer As	Details	No. Of Questions	Total Marks	Total Time (In Min.)	Valid From	Valid Till	Date	Actions
